IPPNW African Student Congress

Jos, Nigeria, December 16th-19th, 2005

We the medical student from Nigeria, Ghana and Cameroon, having converged at the city of Jos realized the effects of war and violent conflicts on our health and the development in the continent in General.

1. We have resolved to adequately support any project or program that would contribute to sustenance of peace and prevention of war and violent conflicts in our continent.
2. We have resolved to work with any organization willing and able to support this worthy course to ensure stability in our continent.
3. We shall within our capacity dedicate ourselves in the advocacy and public health campaign against violent conflicts and war.
4. We shall encourage and participate fully in efforts to improve the living conditions of refugees who are products of unending violence and civil unrests in our continent.
5. We shall perform the four objectives mentioned above by organizing ourselves as groups or clubs of medical student associations in our various schools and countries and liaise with appropriate IPPNW doctors affiliate organizations in our schools/countries.
6. We shall participate actively and fully in IPPNW activities especially those concerning our continents and countries.
7. We shall use IPPNW as a forum to organize programs in line with the above resolutions.
